VULAMASANGO
OPEN GATES

SOUTH AFRICA

In a country, in which newly born children are given names like “Hope” and “Blessing”, it seems almost ironic that more than 2 million children no longer have parents and many of them are sentenced to death in early childhood by an illness they contracted before they were even born.

Statistics of South Africa (Source: UNAIDS)

- 5,5 mil. people infected with HIV (the country ranks second in the world in sheer numbers of HIV infected people).
 - Every 1,6 min. a person dies due to HIV (320.000 per year).
 - Every hour 16 children become orphans!
- The cultural, human and economic costs are staggering. Out of this need the initiative VULAMASANGO (Open Gates) was founded.

„What matters is not what has happened to us, but what we have made of what has happened to us!“

ZABALAZA - African Performance Art (since 2006)

A large part of the capital needed for the running costs of Vulamasango is raised through bi-annual concert tours to Europe (Germany, Austria, Switzerland, the UK and Belgium) by a group of selected children and youth from the project, trained and accompanied by Artistic Director Xolisa Majambe, Project Manager Bongwiwe Majambe and Choirmaster Lusanda Bali.

The performances consist of traditional South African songs, Apartheid struggle songs, and gospel songs, as well as traditional drumming and dancing. Through building up the children's sense of self-worth, the hugely successful tours are an artistic expression of the work done with the children and youngsters at Vulamasango and part of an emotional healing process to overcome both individual traumatic experiences as well as the shadows of South Africa's Apartheid past.
